

Gunterberg Charitable Foundation Endowed Scholarship

This scholarship was established in 2016 with a gift from the Gunterberg Charitable Foundation, which administers the philanthropic giving of the Culliton family. The Fund will provide annual need-based scholarship awards to Pennsylvania College of Health Sciences students enrolled in any of the College's academic programs.

The Foundation is run solely by family members, led by President Carol Culliton-Metzger. Its giving **priorities reflect the family's** passionate commitment to addressing hunger relief, **homelessness and veterans' issues** and to supporting access to educational opportunities.

The Foundation has also provided generous support to Lancaster General Health, including generous gifts to the Ann B. Barshinger

Cancer Institute, the Cardiovascular Clinic and the Seraph-McSparren Pediatric Inpatient Center. In 2016, Carol was honored with the Crispus Attucks Legacy Award, in recognition of the **Foundation's exceptional support** of the Crispus Attucks Community Center.

The Culliton family hope that the recipients of the Gunterberg Charitable Foundation Endowed Scholarship will leverage their educational accomplishments to make the world a better place.
