

## Lynda and Bruce Limpert Endowed Scholarship

This scholarship fund was established in 2019 by Lynda and Bruce Limpert and provides annual need-based scholarship awards to students enrolled in any of the College's associate degree or bachelor's degree-granting academic programs.

The Limperts have long been supporters of education and the granting of scholarships to students in need. A graduate of Gettysburg College with an MBA from Loyola University, Bruce has spent his career in the strategic and financial side of agri-business as well as providing strategic business consulting services through CPS Management Services, a firm Bruce founded in 2007. He has had a long association with Lancaster General Health, having served more than twelve years on the Board of Trustees. He also serves on the Board of Trustees for Pennsylvania College of Health Sciences and understands the unique educational opportunities that the College offers to the community and field of health care. Lynda, who also graduated from Gettysburg College and earned a doctorate in educational leadership from Temple University, was employed as the media specialist/high school librarian for the Elizabethtown Area School District. Although now retired, she still has a deep interest in supporting the students and programs of the District.

*Bruce and Lynda Limpert and family*

Through the years, the Limperts have been very active in giving back to their community. They have always believed in the importance of earning a quality education and in helping students achieve this goal. Through this scholarship, it is their hope that earning a degree at PA College will be a possibility for students who might not otherwise have this opportunity.
